SUMMARY

A motivated and curious technology enthusiast pursuing a Bachelor of Business Administration in Computer Applications. With a good understanding of coding and a strong interest in modern technologies like cloud computing, there is a clear focus on its growing importance in transforming industries.

WORK EXPERIENCE

Intern - Web Development Instructor
Disha Institute (Duration is 3 Months)

- Collaborated with senior instructors to create course materials and lesson plans tailored to beginner-level learners.
- Conducted training sessions on HTML, CSS, and JavaScript, fostering a clear understanding of web development fundamentals.
- Assisted in the development of advanced projects, guiding students through the integration of complex features like APIs and dynamic content.
- Led discussions and workshops on best practices for clean, maintainable code and efficient debugging techniques.

PROJECTS

Responsive Amazon Clone: Developed a responsive e-commerce website with dynamic design features

Personal Portfolio: Built a personal portfolio using HTML, CSS, and JavaScript, showcasing skills, projects, and certifications with dynamic animations powered by GSAP and smooth scrolling with Locomotive Scroll.

Wedding Planner Website: Created a visually appealing platform with backend connectivity using Node.js and SQL database, built with HTML, CSS, and JavaScript, showcasing wedding services and bookings.

Event Planner Website: Designed a website with backend connectivity using Node.js and SQL database, built with HTML, CSS, and JavaScript for smooth event bookings and client communication.
